Since this course involves research with human participants, you are required to complete an online ethics tutorial. The tutorial is called TCPS, for Tri-Council Policy Statement. When you complete the tutorial, you will receive a "certificate of completion."

The certificate of completion is required in the Dean's office before they provide ethics approval for the course projects. If you have already done the tutorial for another course or project, that's great. Please upload your certificate of completion ASAP.

If you have not yet done the tutorial, please set aside the time to do the tutorial and then upload your certificate of completion.

Click here to begin the tutorial, or visit this link:
